To Whom It May Concern:

RE: water testing requirements for new domestic wells

Lassen County's Local Area Management Program requires that new domestic wells have their water quality tested for certain contaminants. Due to that requirement, the following tests must be conducted on new domestic wells:

- Nitrate
- Arsenic
- Total and fecal coliform bacteria

It is the responsibility of the property owner to have these tests completed once the well is put into service. The results must be submitted to Lassen County Environmental Health either by fax to (530) 251-2668, by mail to Environmental Health, 1445 Paul Bunyan Road, Suite B, Susanville, CA 96130, or through email to: ehe.co.lassen.ca.us.

Your assistance in this matter is greatly appreciated. If you have any questions, or need further information, please contact an Environmental Health staff member at (530)251-8528.

Thank you.

Sincerely,

Kenneth Korver, MD
Lassen County Health Officer

Ellen Cognina, REHS
Lassen County Environmental Health Director
